DETAILED ACTION

Response to Amendment

1. The amendment filed on 9/26/05 under 37 CFR 1.131 is sufficient to overcome the objected reference. The amendment filed was sufficient to overcome the objected specification and drawings; also, claim 10 has been amended to overcome the minor informalities listed on the first action done.

Allowable Subject Matter

2. Claims 1-16 are allowed. The prior art neither anticipates nor makes obvious a trailer alignment apparatus comprising a quick adjusting clamping system that has an upper and lower member and a pressure actuated paddle switch assembly with a speaker. The above recitation, combined with the rest of the structure in the independent claim, defines over the prior art.
